ABOUT ME

A driven and fast learner who is passionate about designing and developing modern, yet user-friendly web presences. As a self-motivated developer, my goal is to join a collaborative team that values hard work and dedication and grow with them in a challenging and supportive environment.

TECHNICAL TOOLS

<u>Languages:</u> JavaScript, jQuery, React, HTML, CSS/SASS, Bootstrap.

<u>Additional Skills:</u> Git/Github, Gulp, Responsive Design, Photoshop. Exposed to Angular, Knockout, unit testing frameworks such as Jasmine.

PROJECTS

Neighborhood Map – Developed a single-paged, fully responsive web app that allows users to search for my favorite brunch locations. Implemented Knockout to create a clean user interface and open APIs for retrieving relevant data.
Tools used: Google Maps API, Foursquare API, Knockout JS, Bootstrap, jQuery, HTML, CSS, JS

Local Weather App – Built a fully responsive weather app that uses the user's current location to return his or her local weather condition.
Tools used: jQuery, HTML5 Geolocation, OpenWeatherMap API, CSS flex box

Random Cat Fact Generator – Designed a random fact generator using React.js. Used the Unsplash API to retrieve high quality images to go along with the elegant CSS.
Tools used: React, jQuery, Unsplash API, HTML, CSS

Classic Frogger Arcade Game – Created a replica of the classic frogger game. This project focuses on object-oriented programming and using ES6 classes for prototypal inheritance.
Tools used: HTML5, CSS, JS

WORK EXPERIENCE

Giggle Fiber/ Dr. Peng Telecom & Media Group Co. – Monrovia, CA
Project Coordinator/ Executive Assistant
October 2016 – October 2017
• Implemented Project Professional and Smartsheet to track and manage 20+ engineering projects
