ABOUT ME

A driven and fast learner who is passionate about designing and developing modern, yet user-friendly web presences. I recently became captivated by the web development world and have been immersing myself with endless programming knowledge. As a junior developer, my goal is to join a collaborative team that values hard work and dedication and grow with them in a challenging and supportive environment.

TECHNICAL TOOLS

<u>Languages:</u> JavaScript, jQuery, React, HTML, CSS/SASS, Bootstrap.

<u>Additional Skills:</u> Git/Github, Responsive Design, Photoshop. Exposed to Angular, Knockout, Gulp, Grunt, unit testing frameworks such as Jasmine and QUnit.

PROJECTS

React Fun Portfolio – Building an on-going project that features a fun and creative portfolio site with React.js.
Tools used: React, Gulp, Unsplash API, HTML, CSS/SASS, jQuery, JS

Neighborhood Map – Developed a single-paged, fully responsive web app that allows users to search for my favorite brunch locations. Implemented Knockout to create a clean user interface and open APIs for retrieving relevant data.
Tools used: Google Maps API, Foursquare API, Knockout JS, Bootstrap, jQuery, HTML, CSS, JS

Classic Frogger Arcade Game – Created a user-friendly replica of the classic frogger game. This project focuses on object-oriented programming.
Tools used: HTML5, CSS, JS

Memory Game – Built an interactive and animated memory game. This project focuses on JavaScript DOM manipulation.
Tools used: HTML, CSS, jQuery, JS
